

Covid Vaccine Information

We want to pass along some recent developments on the Covid vaccine. For those who are eligible – now those 65 and over – we understand 3 organizations on the Outer Cape are now providing Covid vaccines: (1) Barnstable County in conjunction with the various towns; (2) Outer Cape Health Services and (3) CVS in Orleans.

We know the application process for the Covid vaccination is very frustrating but we urge you to register for the vaccine. The state website is “vaxfinder.mass.gov” and the county website is “barnstablecountyhealth.org”. Help is available by phone at “211” by following the on-line prompts or by calling the town COA. The Covid vaccine is free, has a good safety profile, and it works – and perhaps life-saving.

Our Parish Nurse, Dawn Manning, has copied some general information which is available in the back of the church. Thank you.
